Task Vision™ "RELIEF TINT" Computer Clip-On Readers

Can be attached to your prescription glasses. When you work at a computer for any length of time, it's common to experience eye strain, blurred vision known as Computer Vision Syndrome (CVS). This is because the visual demands of computer work are unlike those associated with most other activities.

- UV Protection
- Clip-on / Flip-up onto your prescription eyeglasses
- Aspheric Lens – Distortion Free
- Anti Reflective coating
- Hard coated / Scratch Resistant
- 21 grams – Extremely light and comfortable

Principal benefits of "Relief Tint" Computer Clip-On Reading Glasses:

- Efficient protection for the eye
- Enhanced, true color perception
- Increased contrast and sharper detail
- Reduces eyestrain and relaxes your eyes

Task Vision™ Professional Adjustable and Reversible Prism Glasses

- Unique frame design allows the user to adjust the prisms up/down or reverse the prisms.
- The lenses on these glasses are actually prisms that change the normal line of sight without distortion.

Can be used for watching TV, reading and so much more because of the adjustable and reversible feature.

Remove Screw

Remove Prisms

Reverse Prisms & Reset Screw

- Fit over your prescription glasses or sunglasses or worn alone.
- Read or watch TV easily while laying down
- Perfect for bedridden patients
- Adjustable viewing angle - Flip up and stay in place
- Reversible prisms allows user to lie on their stomach or view straight ahead when they can not view normally.
- **Beneficial to patients** that are confined to the same position for long periods or suffer from Progressive Supranuclear Palsy, Osteoporosis, Arthritis, Spine or Neck injury and Stroke disabilities.
- **MRI**- Works with MRI to alleviate the effects of claustrophobia. Patients may be scanned Head First or Feet First with an identical view outside of the MRI magnet. Special non ferrous screws which have no interference with the MRI.
